

WORKSHOP I - REGISTRATION

This workshop is for those who have begun or would like to explore the ancient craft of Tarot Card Reading.

You will receive the tools and processes to be able to read the cards using the ancient symbols and images; and be guided to develop the depth of intuition needed to give accurate readings.

Workshop participants are asked to bring with them the Tarot Card deck they wish to work with (please note we will only be working with Tarot Cards, not oracle decks); a journal and pen or pencils; your water bottle and some lunch (although there are plenty of cafes in Bangalow where you can find something yummy to nourish you at lunchtime), afternoon tea will be provided; and an open and peaceful heart.

Please provide the information requested below so that Leandra has a better insight into your experience with Tarot Cards and can prepare the workshop according to the varying learning desires from all participants.
